➤ PROJECTS

Quiz Game

Built a dynamic quiz game using JavaScript, incorporating features like a countdown timer, question navigation, and a results page displaying total time taken and score. Designed with user interaction in mind, including capturing and displaying usernames for personalized results.

E-Commerce website (Shopping Time)

Developed a full-featured e-commerce web app using React.js, enabling users to browse products, add items to a shopping cart, and complete purchases. Integrated secure user authentication, dynamic routing, and state management with React hooks and Context API for seamless user experience and efficient application performance.
